

FLYER DISTRIBUTION STANDARDS

Flyer Distribution Standards Accreditation

FDS accreditation shows a distribution centre's compliance to flyer delivery standards that were jointly created with retailers and newspaper distributors. Distribution centres are measured against 65 criteria that can be grouped into these six standards:

1. Receiving Product
2. Packaging
3. Truck Loading
4. Delivery
5. Verification
6. Non-Delivery Resolution

Accreditations are only conducted by CCAB (BPA's Canadian division) and Alliance for Audited Media (AAM).
